PROJECTS

eCommerce Web Application (MERN Stack)

MongoDB, Express.js, React.js, Node.js

Developed a full-featured eCommerce web application enabling users to browse products, manage carts, place orders, and make secure payments. Implemented a responsive, user-friendly front end with React . Built a robust back end using Node.js and Express, with MongoDB for persistent data storage.Payment gateway integration handled via Stripe API. Admin panel included for product, user, and order management.

AI Image Generation App

MongoDB, Express.js, React.js, Node.js, OpenAI API

Built a full-stack web application that generates images from natural language prompts using AI. Integrated a text-to-image model (e.g., OpenAI's DALL·E or Stable Diffusion) and provided a clean user interface for prompt input, image display, and history tracking.
